

DERMAVET[®]

COMPOSITION:

Each 1g contains aqueous extracts of:

<i>Shorea robusta</i>	20mg
<i>Azadirachta indica</i>	20mg
<i>Pongamia pinnata</i>	20mg
<i>Cassia tora</i>	20mg
<i>Ficus infectoria</i>	30mg
<i>Glycyrrhiza glabra</i>	40mg
<i>Celastrus panniculatus</i>	6mg
<i>Jasad bhasma</i>	10mg

In a cream base

Contains methylparaben 0,20 % w/w and propylparaben 0,02 % w/w as preservatives.

PHARMACOLOGICAL ACTION:

This medicine is based upon the Ayurvedic science. The synergistic action of all the active ingredients provides continuous support to the healing process.

INDICATIONS:

Dermavet is indicated for the treatment of slow healing wounds, topical superficial wounds and topical septic wounds in dogs, cats and horses. Dermavet encompasses the antibacterial and antifungal properties of *Azadirachta indica*, *Pongamia pinnata* and *Cassia tora*. It has the cooling, haemastatic and astringent properties of *Shorea robusta*, *Glycyrrhiza glabra*, *Ficus infectoria* and *Jashad bhasma*. It also has the analgesic property of *Celastrus panniculatus*.

WARNINGS:

Safety in pregnancy and lactation has not been established. Unless otherwise prescribed, do not exceed the stated dose. To be used under the supervision of a suitably qualified person.

DOSAGE AND DIRECTIONS FOR USE:

Apply at least twice daily or as prescribed by a veterinarian. Apply liberally over the entire wound surface.

Should the mentioned conditions not improve within 10 days, please consult your veterinarian.

FOR TOPICAL USE ONLY.

SIDE EFFECTS AND ADVERSE REACTIONS:

In the unlikely event of a local hypersensitivity reaction please contact your veterinarian.

IDENTIFICATION:

A yellow to brown coloured cream, having a characteristic odour.

PRESENTATION:

A grey coloured, 20g aluminium tube.

STORAGE INSTRUCTIONS:

Store in a dry place, below 25 °C.

KEEP OUT OF REACH OF CHILDREN AND UNINFORMED PERSONS.
