

EFAZOL

Essential Fatty Acids with Zinc

DESCRIPTION:

A nutritional aid in the management of inflammatory skin conditions

EFAZOL liquid is a palatable nutritional supplement containing essential fatty acids, vitamins and zinc known to play an important role in the management of certain skin conditions in dogs. It has been shown that Essential Fatty Acid supplementation can facilitate the reduction of corticosteroids used in the treatment of skin conditions.

COMPOSITION:

Each ml contains:

Linoleic acid	416 mg
Linolenic acid	43 mg
Gamma Linolenic acid	1.34mg
